Product Descriptions:

Prints

Lustre: Lustre is a premium finish on a heavier paper. It offers the vibrant colors of glossy with the fingerprint-resistant finish of matte. Printed on Kodak Supra Endura Paper.

Metallic: With a glossy finish and unique metallic appearance, these prints have extra visual interest and depth. They are printed on long-lasting Kodak Professional Endura Metallic paper.

This paper uses a proprietary combination of film laminate layers that produce striking, three-dimensional, lasting images on an ultra-bright background. The effect is sometimes described as "chrome on paper."

You'll see extreme sharpness, brightness, and color saturation with an intense black density that increases its appeal. The proprietary laminate layers also increase the durability and tear resistance of the final print, increasing the opportunities for display applications.

Giclee Watercolor: When it comes to fine art reproduction technology, painters and photographers consider giclée prints the most viable medium because of the beauty, colors, and resolution. Giclee art prints are coveted by collectors and displayed in museums. Giclée reproduction offers beautiful tonal renditions, providing the right materials are used.

Mounted Canvas Prints

Printed on heavy duty PremierArt Water Resistant Canvas, then finished with a dry lamination process that is UV and water resistant. You have the option of a wrap, stretcher, or mounted to art board.

Merchandise

T-Shirts: Our T-shirts are made from 100% cotton and are bright white and short-sleeved.

Photo T-shirts are available in youth sizes S, M, L, and XL, adult sizes S, M, L, XL and XXL.

In the shopping cart, the default is for a square image but you can select "Crop: None" to print a wide or tall image.

T-shirts have satisfactory color reproduction, but not as accurate as photographic prints or hard-surface gifts like buttons.

Sweatshirts: Sweatshirts are available in Adult sizes S, M, L, XL, and XXL.

They are made from a very light, soft and durable blend of polyester and cotton. Sweatshirts are bright white, long-sleeved with stretch wristbands.

In the shopping cart, the default is for a square image but you can select "Crop: None" to print a wide or tall image.

Sweatshirts have good color reproduction, but not as accurate as photographic prints or hard-surface gifts like buttons.

Photo Apron: Aprons are a machine-washable, 50/50 cotton polyester blend with durable heavy-duty stitching. Each apron measures 33 inches from top edge to bottom edge (approximately 24 vertical inches are pictured in this photo on a 6-foot, 4-inch man).

In the shopping cart, the default is for a square image but you can select "Crop: None" to print a wide or tall image.

Aprons have satisfactory color reproduction, but not as accurate as photographic prints or hard-surface gifts like buttons.

Coffee Mugs: Mugs are available in black or white.

The photo on the mug typically faces you while drinking if you're holding the mug in your right hand. Options include the ability to have your photo to wrap around the mug, or you'd like it to be on the opposite side of the mug.

(The cart preview is not accurate in the special case of mugs. Highly rectangular images appear to have added white space top and bottom when you choose "None" for cropping, but they will print correctly.)

Color reproduction on mugs is not as accurate as on photographic prints.

Mugs are very durable and are microwave and dishwasher-safe.
